An Ingersoll Rand Business

***CARE SERVICE
PROGRAMS***

A TRUSTED PARTNERSHIP.

The SEEPEX progressive cavity pumps, pump systems and/or digital solutions in your factory are often critical to your operation. A proper maintenance strategy is crucial to avoiding unplanned and costly downtime along with production interruptions.

Partner with SEEPEX to get the best *CARE* service program for your equipment. Highly qualified SEEPEX engineers take a holistic approach – demonstrating in-depth knowledge about pumps, their applications and the industry sectors they support – to advise customers personally, thoroughly and competently.

CARE SERVICE PROGRAM ADVANTAGES

ORIGINAL PARTS

SEEPEX original parts ensure the long-term value of the pump and its sustainable quality by greatly reducing the measurable costs of downtime, energy consumption, maintenance and service.

RAPID RESPONSE

SEEPEX customers are in safe hands when it comes to pump maintenance: As our service program customer, you are our top priority when it comes to repair work.

OPTIMIZED EQUIPMENT

Our *CARE* programs help maintain efficiency by ensuring that equipment is kept in optimal condition for peak performance.

EARLY DETECTION

We will outline a plan together which ensures your equipment receives timely maintenance, thereby increasing uptime and avoiding unexpected downtime that wastes time and resources.

LONGER LASTING

Replacing the right parts at the right time ensures longer life and reduces the likelihood of unwanted maintenance surprises.

PREFERRED PRICING

You will benefit from attractive purchasing conditions on spare parts and maintenance.

Choose a Reliable Maintenance Plan

Invest in your future with a SEEPEX CARE service program.

Regardless of which strategy you choose, as your trusted partner we will ensure equipment reliability during its lifetime.

PARTSCARE

What You'll Get
